

Wearable Hardware Engineering Manager

Introduction

At GraphWear, we are on a mission to provide continuous medical diagnostics to every human. Without any needles or a doctor's appointment.

Headquartered in San Francisco, GraphWear is first addressing the global diabetic pandemic. We are eliminating painful and expensive blood glucose monitors with a continuous needle free glucose monitoring system.

Description

We are looking for a seasoned hands-on individual with experience in consumer medical wearables / devices and who is motivated to help prevent and manage chronic diseases. At GraphWear, you will join a multidisciplinary team and work closely with our hardware design and manufacturing team which you will help grow and build. Your role will primarily consist of driving our product forward: you will manage the designing, prototyping, tooling, and testing of the product. You will also be instrumental in sourcing and managing key partners, vendors, and suppliers. We are looking for someone willing to get their hands dirty and to try and explore ideas before assuming they are impossible.

The candidate must demonstrate exceptional experience in the following

- Industrial development of consumer medical wearables / devices: designing, prototyping, tooling, testing, from concept to manufacturing / shipping
- Low power electronic circuit design, PCB layout, verification, and testing
- Seeing a product through clinical trials / regulatory approval processes
- Implementing and enforcing current good manufacturing practices (cGMP): 21 CFR 820, ISO 13485, HIPAA compliance
- Sourcing, vetting, and managing suppliers and service providers
- Organizing, managing, and synergizing multidisciplinary teams while keeping a holistic eye on the product
- Ability to think, move fast and make decisions using first principles
- Excellent attention to detail and record-keeping
- A can-do attitude that will allow you to grow during your time at GraphWear

Minimum requirements

- Master's degree or higher in EE, ME, product design or equivalent field.
- Applicant must be able to work in the United States

Apply

-CV and cover letter to careers@graphwear.co
